Igor,

The following attachments are the pool plans with distance to the property line and landscaping plans. In New Fairfield we need 60' feet to the property line for a pool. We would like to place the pool along side the deck, which would bring the pool 45' from the property line. I'll be home around 1pm today- if you have time, I would like to discuss the pool and the landscaping with you.

Thanks,
Brian

To the Town of New Fairfield,
