We want to apologize for any miscommunication, or slight, concerning the application for a variance for our construction project. Due to medical reasons, we left the lake August 25th for Florida as the variance was filed. We understand your concerns and, in light of that, the project has been scaled back. Our project will have no change or impact on the side of the house facing you.

We hope that these concessions will allay your concerns because being good neighbors is important to us. Kathy and Don

Mark and I hope you are both well. We look forward to seeing the revised plans.
