Jean

I am still waiting on a final interest rate. It should be in the neighbor of 5.99%. then the yearly lease payment with 5 years of service included would be approximately \$5,683.31. Without the service included it would be \$4,132.88 per year. Then service would be budgeted each year and increase each year.

I hope this will help you get this on the agenda.

Thanks

Patty Mota
